 Department of Education
 Manchester Township Board of Education

Contractor: E.R. Barrett, Inc.
 Millington, New Jersey

Assembly: Insulated Asphalt Built-Up Roof

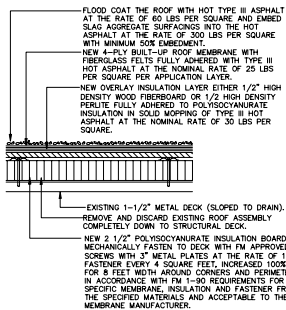

Completion: October, 1999

Cost: \$ 172,227

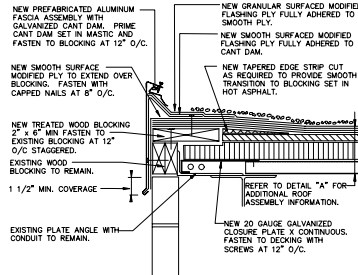

JACKSON REGIONAL DAY SCHOOL

Comment: Roof replacement on approximately 27,700 square feet of roof area. The roof replacement project was particularly sensitive due to the health issues within the student population. The tight project schedule was specified with roofing demolition and installation to be completed while the facility is closed for the summer break & weekends and the project scope and design phasing simplified to accommodate the scheduling. The Scope of Work on this project also included minor masonry restoration, as well as modifications to the rooftop mechanical equipment and an atrium skylight assembly.
